PERSONAL

JOHN MURPHY, who has been in Tonopah for several months, was a passenger for San Jose on this morning's train.

H. A. HORNLEIN, brother of Mrs. James Mayberry, arrived from Lovelock yesterday and after spending the day at the Mayberry home, left this morning for his home town, San Francisco.

MRS. HOMER BLACK, who has been spending her vacation in San Francisco and Los Angeles for the past month returned on today's train.

HOMER MAHIS, who was injured in a mine accident at Manhattan about a month ago, left this morning for Redding, Cal., to visit with his daughter and family for an indefinite time.

ENGLAND TRYING TO SAVE MONEY

Large Number of Bankruptcy Cases Are Reason For Exercise of Economy.

(Correspondence Associated Press)

LONDON, July 28.—English people have determined upon a policy of economy resulting in a considerable saving in the number of bankruptcies during the last few months. The number of bankruptcies did not only in London but also in the provinces. The number of bankruptcies is being kept down by the fact that the average number is far below the total for previous years. Figures for 1919 show 727 as against 2516 for 1914.

While many reasons for this state of affairs are advanced, the most noticeable one in business circles is the attitude of the buying public which has decided only to purchase absolute necessities. In consequence, dealers who have purchased large stocks of goods at fancy prices in anticipation of quick and handsome profits, find themselves with "white elephants" on their hands and a not very profitable situation.

SELL AT A LOSS

The goods had to be sold at a loss frequently at a big loss. The recent bankruptcies included a number of demobilized men who started with the proceeds of their military and small savings. These men for the most part were inexperienced in the ways of trade, and when a severe test came, they were forced to close their doors.

A woman proprietor of a high class millinery shop in Bond street explained recently that wealthy women who before the war bought garments in such specialty shops as hers, were unable to do so now, because of the tremendous cost of living, wages for servants, etc. These women are now only purchasing the necessities, the business woman added.

From every trade comes the report that shopkeepers and business houses generally find themselves with an overstock of goods purchased in the hope of a big buying season this spring and summer.

HAS HARD JOB IN JERUSALEM

(Correspondence Associated Press)

JERUSALEM, June 29.—The office of governor of Jerusalem, once occupied by Pontius Pilate, is now held by Colonel Ronald Storrs, a graduate of Cambridge university and son of the dean of Rochester college, England.

The task is one to test the administrative ability of any man. Jerusalem is a city of divisions, where, whatever may come of the future, for the moment Zionists and Arabs are passionately divided and to steer a just path between them and induce them to join him on that path is a thankless work.

It is to that task, however, that he chiefly devotes himself. Twice a week he has meetings of his favorite pro-Jerusalem society, where French, Italians, British, Americans, rabbis, Zionists, leaders, commercial men of standing and others who are in any way prominent in the life of the city are brought together and in the course of debate, led to see that they have in common single citizenship. His motto as governor is "unity and friends."

Colonel Storrs was one of the prime movers in the establishment of an independent Arab kingdom. He is 38 years old.

Dose: 4 Capsules 4 Times a Day

BATTLESHIP IOWA WILL BE TARGET

Famous in America's Navy in Spanish-American War: Is Now Useless.

(Correspondence of Associated Press)

WASHINGTON, July 28.—The once famous battleship Iowa, which played no small part in the destruction of "Cerro" (Cerro) at Santiago, is being prepared at the Philadelphia navy yard for what naval officers say will be one of the most unique target experiments ever attempted.

Proceeding unannounced, under her own steam and controlled by radio, probably from seaplanes, the old seacraft will become the objective in the big guns of the Atlantic fleet superdreadnoughts in Chesapeake bay, late this summer. This will be the first time that American seaplanes have used a moving target for a target in actual war.

Two of the Iowa's coal burning boilers are being converted to burn oil so the ship may continue under way with no time aboard, once her crew has been started burning and the machine placed in motion.

It is expected that the unique practice will give the gun pointers of the Atlantic fleet an opportunity to test their ability under conditions so nearly like those to be expected in battle as can be obtained. Smoke screens will be thrown around the Iowa during the run and the course will be changed as will through the radio control system, necessitating a change in range on all the firing ships, exactly as would occur in action.

The Iowa has already been stripped of some of its guns and much valuable metal and the practice will be continued until the old vessel, a mass of rusted metal, sinks beneath the waves to join the old Texas, which as the Sun Marvins was used for a stationary target years ago.

The battleship Ohio has been turned over to the bureau of steam engineering for purposes of experiment in radio control and a staff of expert technical officers has been placed on board to arrange the Iowa practice.

SOCIALIST REGIME INVADES INDUSTRY

(Correspondence Associated Press)

STOCKHOLM, July 5.—The new socialist government has appointed a committee to investigate the possibilities of socializing certain lines of industry, and whether, if possible, such a step would prove advantageous for consumers and society generally. Premier Branting, Sweden's first socialist premier, emphasized the necessity that socialization in no manner must result in decreased production.

Premier Branting pointed out that the committee will not deal with the question of systematic socialization of production, "this being far from the aim of the present cabinet."

BUY JAMAICA WHISKY

(Correspondence of Associated Press)

KINGSTON, Jamaica, July 10.—There is hardly a ship coming here from America whose crew do not purchase a quantity of rum and whisky. As much as \$60 is being paid for a case of the beverage, an increase of 100 per cent. Evidence has been disclosed that whisky and other spirits are being smuggled into the United States in bags of coconuts.

SUSPEND PUBLICATION

(Correspondence of Associated Press)

ANCHORAGE, Alaska, July 28.—Publication of The Alaska Record, a weekly paper issued by the Alaska Engineering commission, a government organization here, has been suspended under a recently enacted law regulating government publications. The Record carried news and orders regarding the railroad being built between Seward and Fairbanks.

"LOVE'S HARVEST" TO BRING SHIRLEY MASON

"Love's Harvest," a new William Fox production which comes to the Edith theatre today, is the story of a girl whose father, dying, gave her away like a parcel of real estate to a man she had never seen.

The role of this girl is enacted by pretty Shirley Mason, who is said to have outshined the success she scored in the recent productions, "The Elephant Man" and "Molly" and "Love's Harvest" is from the successful novel "His Harvest" by Pearl Davis Bell, of which the critics have said: "It is a story of living characters, natural, human and vitally interesting. The character of the heroine is irresistibly quaintly pathetic, delightfully original, and altogether lovable." And many have said that this description aptly fits Miss Mason herself.

It is a story of the stage and of a young girl's heart, and the scenes are laid in Paris and New York.

SINN FEIN HAVE COURT SYSTEM

(Correspondence Associated Press)

DUBLIN, July 5.—The Sinn Fein have established a judicial system for Ireland composed of parish courts, district courts and a court of final appeal.

All judges have to take the oath of allegiance to Dan Brounne, and all litigants must agree not to submit to any enemy tribunal any matters on which the republican courts may pronounce a decision. The judges of the parish courts receive one pound a day for expenses and the district judges two pounds. The costs of the courts are provided out of deposits collected from the litigants.

The council of the Irish bar has decided that it is professional misconduct for a member of the bar to appear before any of these courts, but there are many Irish barristers willing to appear for a suitable fee before the republican courts.

The government treats all these courts in civil matters as really arbitrations with which they are not concerned. But in criminal matters they are regarded as illegal and persons punished by them are entitled to the protection of the police.

W. R. C. MEETS

The regular meeting of the Women's Relief Corps was held last evening at 1000 E. 10th. There was an excellent attendance, several visiting members of the organization being present. Refreshments
